SUMMARY

To leverage my expertise in React development, including proficiency in JavaScript, React.js, and state management, to create dynamic and user-friendly web applications. I aim to contribute to innovative projects, solve real-world challenges, and continuously grow both technically and creatively within the software development field. My focus is on delivering high-quality, responsive, and seamless user experiences while keeping up with the latest industry trends and technologies.

SKILLS

HTML, CSS, JavaScript, TypeScript, Bootstrap, GitHub, React JS, React Redux, React Router, Node JS, Express JS, MongoDB, Material UI, Zustand.

WORK EXPERIENCE - REACT DEVELOPER

eMarket Experts

Aug 2023 - Working

- Currently employed at eMarket Experts, working on DAXRM, a cutting-edge product designed to provide top-notch solutions for SEO ranking challenges.
 - 1.5 years of experience in Frontend Development with React JS and TypeScript.
 - Collaborated with backend developers to integrate frontend components, enhancing overall product functionality.
-

REACT PROJECTS (Weltec Institute 2023, Vadodara)

- 1) Login Registration Dashboard (using protected routes, JWT token and interceptor)**
Developed a secure Login Registration Dashboard using React JS, JWT tokens, and protected routes. Implemented an interceptor to manage authentication, ensuring secure API requests and seamless user access control throughout the application.
- 2) Product List & Product Details**
Developed a feature to display a Product List and individual Product details, allowing users to view products efficiently. Implemented dynamic rendering with React JS, ensuring a seamless user experience while fetching and displaying product data.
- 3) Vocational University**
Built a Vocational University single-page application using React JS. The page showcases static educational information, providing a clean, responsive layout that adapts seamlessly across devices for a smooth user experience.
- 4) Student List (CRUD Operation using MUI Theme)**
Developed a Student List CRUD application using React and Material UI, implementing create, read, update, and delete functionalities for student data management with responsive UI components and state management.
- 5) E-commerce Website**
Built an e-commerce website using React, integrating a fake API to display product listings. Implemented login and registration functionality with local storage for user authentication and session management.

JAVASCRIPT (Weltec Institute 2023, Vadodara)

1. **Swapping Item**
Built a simple app for users to swap items with others.
2. **Todo List**
Developed a basic app for managing and organizing daily tasks.
3. **Temperature Converter**
Created a tool to easily convert temperatures between Celsius, Fahrenheit, and Kelvin.

Landing Pages (Weltec Institute 2023, Vadodara)

1. **Mintech**: A modern, tech-focused website with clean and sleek design.
2. **Medical Shop**: A user-friendly, professional site showcasing medical products and services.
3. **Tour Package**: A visually engaging website for promoting travel packages with a focus on design and navigation.
4. **Co-Working**: A sleek and modern website for co-working space services, emphasizing user experience.
5. **Accounting and Financing**: A professional website offering financial and accounting services with a clean, business-focused design.

Tools & Technology used: ReactJS, Zustand, Redux, Node JS, Express JS, MongoDB, JavaScript, CSS, HTML
