📁 PROJECTS

My Portfolio ✍

Personal portfolio showcasing skills, projects, and contact info using React and responsive design

Food Delivery Website ✍

- Developed a restaurant delivery platform with React (MUI) and Firebase (Auth + Realtime Database).
- Built two separate interfaces – Admin Panel for managing categories, recipes, and orders.
- User App for browsing, cart, and order placement. Implemented Firebase Authentication (REST API) for secure login, signup, and password reset.
- Designed CRUD operations for categories, recipes, and order management using Firebase Realtime DB.

E-commerce Website ✍

Full-featured online store with product browsing, cart, checkout functionality and login functionality.

Mail box Client ✍

Developed a responsive email client using React and Material UI for the frontend, integrated with Firebase for authentication and real-time data storage.

Expense Tracker ✍

I created an app to track expenses with options for Excel download, theme change, and secure data storage.

Student Progress Tracker ✍

A web application built for teachers to manage students, mark attendance, and track overall performance
